OUR MAN IN KUWAIT

LOUISE BURFITT-DONS

"A brilliant marriage of fact and fiction."

Hamish de Bretton-Gordon OBE
World chemical weapons expert

Kuwait 1960. With Soviet backing Iraq plans to invade. Gordon Carlisle lives in the expat community of Ahmadi with little to worry about other than when to next don his dinner jacket. Following contact by an MI6 agent everything changes. Even marriage to his beautiful new wife Anita breaks down as he becomes a suspect in a chain of deaths in the Protectorate.

Ian Fleming's time in Kuwait is recorded at first hand as Britain prepares to meet Iraqi forces head on with Operation Vantage.

A colonial-era thriller set against the background of big power conflict. The ultimate timepiece tinderbox of sun, sex and spies.
